PROFILE

Results-driven Frontend Developer with expertise in JavaScript and a strong foundation in front-end technologies including HTML, CSS, and React. Proven ability to create dynamic and responsive user interfaces that enhance user experience. Skilled in collaborating with cross-functional teams to translate client requirements into engaging web applications. Committed to staying current with industry trends and best practices to deliver high-quality solutions that align with user needs and business goals.

WORK EXPERIENCE

Software Engineer

Metafic, Indore

07/2022-Present

- Spearheaded the development of NXZSOUND 1.0, a music application facilitating over 10,000 uploads of songs and videos, enhancing user engagement.
- Implemented playlist creation features and established tiered user authorization levels, leading to increased subscriptions.
- Developed functionalities for deal creation to enhance monetization opportunities, contributing to revenue growth.
- Managed multiple projects, including WindEverest and BuilderWhiteboard, achieving high client satisfaction.
- Integrated third-party services, including Firebase and Plaid, improving application functionality.
- Utilized a tech stack including React.js, HTML, CSS, Context API, Material-UI, and Ant Design for a polished platform experience.

Software Engineer

Mernplus Technologies, Rajasthan

09/2021-07/2022

- Led the development of client projects including JSW, San Miguel, and GFB, ensuring timely execution and alignment with project objectives.
- Provided ongoing client support, enhancing satisfaction and improving retention rates.
- Focused on N8N interface development using plain JavaScript to enhance automation processes and increase workflow efficiency.
- Implemented integrations with Webhooks, Redis, and Google Sheets for effective data management.
- Engaged directly with clients to gather feature requirements and address change requests for successful project outcomes.
- Contributed to frontend UI development, specializing in CSS for enhanced user interfaces.

EXPERTISE

- Experienced Applications Developer with over 4 years in the full development lifecycle. Proficient in HTML, CSS, and JavaScript, delivering responsive web layouts for modern browsers and mobile devices. Skilled in version control systems like Bitbucket and Git for effective collaboration and code management.
- Adept in communication tools such as Slack and Microsoft Teams, facilitating project coordination. Proven ability to meet tight deadlines and manage multiple tasks, delivering high-quality solutions on time. Familiar with Agile methodology, supporting iterative and collaborative project execution.
- Recognized as a self-motivated team player with strong analytical and problem-solving skills, quickly grasping new concepts and effectively collaborating with stakeholders.

WORK EXPERIENCE

Software Developer

Webllisto Technologies Pvt Ltd, Indore

04/2021-09/2021

- Oversaw frontend development for an NFT Marketplace using React.js, enhancing user interactions on a decentralized platform for non-fungible tokens.
- Ensured cross-blockchain compatibility by developing the marketplace for both Klaytn and Ethereum networks.
- Collaborated with business analysts to gather requirements and align project objectives.
- Facilitated discussions with team members to strategize design, implementation, and testing.
- Delivered high-quality features within timelines and managed tasks from development through release.
- Conducted debugging to resolve defects and maintain platform robustness.
- Prepared documentation outlining new designs for team reference.
- Tech Stack: React.js, HTML, CSS, Node.js, Blockchain, React-Redux.

Executive Technology

ABSTech Services, Bhubaneswar

01/2021 - 04/2021

- Contributed to AirKYC™, a face recognition-based eKYC solution that digitizes the KYC process, streamlines maintenance, and ensures regulatory compliance, with the HR and Admin module enhancing functionality and user experience.
- Collaborated with business analysts to gather and clarify functional requirements to align with project objectives.
- Provided production support for digital and CSR systems, ensuring seamless operation and user satisfaction.
- Prepared documentation detailing new designs and implementations for team reference.
- Tech Stack: React.js, Material-UI, HTML, CSS3, Python, React-Redux.

Intern

AppStone Pvt Ltd

12/2018 - 05/2019

Worked on Online Music Application as an intern using ReactJs.

SINCERELY,

FARHEEN IDRIS
